# Contents

## Preface

## Part I

### Introduction

1. Wetlands: Human Use and Science 3
2. Wetland Definitions 27
3. Wetlands of the World 45

## Part II

### The Wetland Environment

4. Wetland Hydrology 111
5. Wetland Soils 161
6. Wetland Biogeochemistry 179
7. Wetland Vegetation and Succession 215

## Part III

### Wetland Ecosystems

8. Tidal Marshes 259
9. Mangrove Swamps 311
10. Freshwater Marshes 341
11. Freshwater Swamps and Riparian Ecosystems 373
12. Peatlands 413
Part IV Traditional Wetland Management

13 Wetland Classification  455
14 Human Impacts and Management of Wetlands  477
15 Wetland Laws and Protection  503

Part V Ecosystem Services

16 Wetland Ecosystem Services  527
17 Wetlands and Climate Change  563
18 Wetland Creation and Restoration  591
19 Wetlands and Water Quality  647

Appendix A. Wetland Losses by State in the United States, 1780s–1980s  701
Appendix B. Useful Wetland Web Pages  703
Appendix C. Useful Conversion Factors  705
Glossary  708
Index  721
