**TOOLS & SUPPLIES FOR DESIGNING AND BUILDING WETLANDS  
FORESTRY SUPPLIERS, INC.**

**Determining Soil Texture and if Groundwater is Close to the Surface:**

Forestry Suppliers Tile Probe  
3/8" x 48"  
**Catalog Number:** 77540  
**Cost:** \$42.00

**Notes:** Avoid probes with larger diameter or longer length. They are too difficult to push into the ground

AMS One-Piece Auger  
2-1/2" x 52" Open-Face Clay Auger  
**Catalog Number:** 77637  
**Cost:** \$208.95

**Notes:** Great for all types of soils

**Construction Level, Tripod, and Rod:**

Topcon AT-B4 – 24x Magnification Automatic Level  
**Catalog Number:** 37725  
**Cost:** \$250.00

**Notes:** Waterproof, unlike many others that are only water resistant. More expensive models have greater magnification, which is nice to have, but not essential

Heavy-Duty Aluminum 5/8" x 11 Tripod with Flat Head and Screw Clamps.  
**Catalog Number:** 37663  
**Cost:** \$74.50

**Notes:** 65" extended; 42" retracted

or

Crain Rectangular Fiberglass  
Telescoping Leveling Rod  
4m in 0.5 cm  
Note: *This rod is not for use with a laser level.*

**Catalog Number:** 43517  
**Cost:** \$75.95

### Optional (but recommended) items

EarthWay® Model 2750 Over-the-Shoulder Broadcast Spreader  
Works great for spreading wheat, oats, rye, and grass seeds. Not designed for spreading warm season grass seeds

**Catalog Number:** 69019  
**Cost:** \$39.75

Soil Compaction Tester  
Takes the guess work out of measuring compaction in groundwater dams, and when making wetlands with compacted clay liners

**Catalog Number:** 77143  
**Cost:** \$235.00

USDA Calibrated Soil Texture Identification Kit

**Catalog Number:** 77360  
**Price:** \$159.99

Spectra Precision LL300 Laser Level Package-includes Laser Level, HL 450 Laserometer, 16' level rod graduated in tenths, and aluminum tripod

**Catalog Number:** 43744

**Cost:** \$865.95 Easy to use, reliable, and accurate. Separate rechargeable batteries are recommended. Be careful when ordering a rod as it must be specifically designed for use with the laser level. The rod should have a scale on both sides, and the scale on the back side must be reversed. *This is very important to confirm when ordering.*
